# HOW DO BIO-MAGNETIC MATTRESSES WORK?

01

Your body naturally has magnetic and electric fields. All your molecules have a small amount of magnetic energy in them. The thought behind magnetic field therapy is that certain problems happen because your magnetic fields are out of balance. If you put a magnetic field near your body, it's believed things will go back to normal.

02

Ions like calcium and potassium help your cells send signals. In tests, scientists have seen magnets change how these ions act. However, so far, there isn't evidence that magnets have the same effect on cells when they're in your body.

03

PAIN RELIEF is the most common use of magnets. Wounds and painful areas of the body are marked by a lack of oxygen and poor circulation. It is believed that magnetic stimulation helps to increase blood circulation. A negative magnetic field is used to normalize disturbed metabolic functions causing painful conditions like inflammation and cell degeneration. Magnetic fields put directly on top of the head has been proven to have a calming effect.

04

100% Scientifically and Medically proven by root help to eliminate balance control high by low BP Diabetes, Heart attack, Cancer, Paralysis body pain joint.
